ART. 2 DEFINITIONS

A) MAIN SITE OF THE STUDY COURSE ATTENDED

Main site of the study course attended means the Municipality where the student attends the greatest number of hours of the teaching activities scheduled for the course year for which he or she is registered, excluding internships hours.

B) ON-SITE, OFF-SITE AND COMMUTING STUDENTS

An **on-site student** is understood as a student who lives in the Municipality that is the main site of the attended study course. In the same way, this is understood as a student whose main site of the study course attended is in the Municipality of:

- Florence, Bagno a Ripoli, Calenzano, Campi Bisenzio, Fiesole, Lastra a Signa, Pontassieve, Rignano sull'Arno, Scandicci, Sesto Fiorentino, Signa and Vaglia if he or she is resident in any one of these Municipalities;
- Pisa, with residence in the Municipalities of Calci, Cascina, San Giuliano Terme and Vecchiano;
- Siena, with residence in the Municipalities of Monteriggioni, Monteroni d'Arbia, Sovicille, Castelnuovo Berardenga and Asciano;

An **off-site student** is understood as a student living in a Municipality which is not the Municipality of the main site of the study course attended, with travel times with public transport of more than one hour between said Municipalities.

A **commuting student** is understood as a student who is neither on-site, nor off-site.

The students must declare the site of the study course and the Municipality of residence on the online application for scholarship. An automatic procedure determine the status of *off-site*, *on-site* or *commuting*.

If students feel they should be considered in a different category, they should request for their status to be reviewed within 11 October 2021, for PhD and specialization course students within 27 December 2021, using a specific online application, duly documented, stating the time taken to reach the municipality of the main site of the study course attended from their place of residence.

An off-site student could request for his status to be converted in commuting if the travel time with public transport from the place of residence to the Municipality of the main site of the study course attended, is more than one hour but less than 90 minutes.

Appendix A lists the municipalities with travel times with public transport from 60 to 90 minutes than the main site of universities and institutes. For students living in those municipalities and attending the main site of the study course the request of changing the status could be applied without documentation attached.

If the conditions are met, the Agency shall, at its discretion, accept the application, through publication of the final ranking.

Foreign students, whether resident in Italy or not, are considered **off-site**, with the exception of the student whose household lives in Italy or the self supported student as stated at art. 8 paragraph D of this announcement.

Students who are in prison are always considered **on-site**.

C) CONVENTIONAL YEAR OF ENROLMENT

The merit-based requirements which the students must meet (see article 5) always apply to the **conventional year of enrolment**, which:

- *for students enrolled on three-year degree courses and single-cycle master degree courses*: corresponds to the total number of registrations carried out at the University from the academic year in which they first enrolled up to and including the 2021/2022 academic year;
- *for students enrolled on second-cycle degrees*: corresponds to the total number of registrations carried out for those courses, after having obtained the three-year degree, increased, in cases where the first entry occurred in a year subsequent to the first, by the number of years in which registration was not performed.

By exception the conventional year of enrolment is determined for the following cases by these procedures:

1. for students who transferred from **a course year to the first year of another course** prior to the 2021/2022 academic year, the years preceding the transfer shall not be counted, provided that the University had not approved previously earned credits;
2. for students who, **having abandoned their studies, registered again for a first course year** prior to the 2021/2022 academic year, the years preceding the last registration are not counted, provided that the University had not approved previously earned credits in the previous university career;
3. for students who, having obtained the three-year degree or a qualification conventionally equivalent, are or have been admitted to a single-cycle master degree, the years of enrolment at University from the academic year of first registration up to and including the 2021/2022 academic year are counted, without prejudice, in that calculation, to enforcement, where necessary, of points 1 and 2 above;
4. for students who, having attended a three-year degree course (regardless of whether the qualification was obtained or not), are or have been admitted to a single-cycle master degree, as they are unable to continue their studies in the corresponding second-cycle degree because this has not been activated, and in presence of the confirmation of previously earned credits by the University, of the duration (3 years) of the three-year degree course and the years of enrolment in the single-cycle master degree are counted (including 2021/2022);
5. for students who, having attended a degree course abroad, are or have been admitted to a degree course with acknowledgement of the credits obtained, the years of enrolment at University (both abroad and in Italy) from the academic year of the first registration up to and including the 2021/2022 academic year are counted;
6. the years for which the Universities allowed exemption from tax payment due to interruption of studies, pursuant to article 8, 4th and 5th paragraphs of Decree of the President of the Council of Ministers of 9 April 2001, as well as the years for which the students were not able to perform any action with respect to their university career are not counted.

1) DEFINITIONS CONCERNING THE STUDENT'S FINANCIAL STATUS

- a. **Single substitutive declaration (DSU)**: a form listing the details for determining the financial/assets status of the household of the individual applying for funded service (in this case the scholarship and the place in accommodation), pursuant to Decree of the President

of the Council of Ministers no. 159/2013, as modified by subsequent ministerial and directorial decrees.

- b. **ISEE Certificate:** certificate showing the ISEE and ISP indicators and their value on the equivalence scale, based on the information in the Self-Declaration (DSU). For participating to this Announcement the ISEE certificate must be valid for the benefits of the right to university study;

- d. **ISEE:** Equivalent Financial Status Indicator;
- e. **ISPE:** Equivalent Assets Status Indicator: obtained by dividing the ISP by the equivalence scale (this value is calculated by the Agency);

ART. 3 GENERAL REQUIREMENTS

Students enrolled or who intend to enrol in the 2021/2022 academic year on the following study courses offered by the **Universities of Tuscany**, are entitled to apply for the granting of scholarships and the places in accommodation under this Announcement with respect to the first qualification for each level of study only:

- three-year degree courses, single-cycle master degree courses, second-cycle degree courses;
- specialization courses, with the exception of those on a specialist training contract or on benefits which are not consistent with article 20, point A1 below;
- PhD courses activated pursuant to Legislative Decree 210/98, article 4, with the exception of students with scholarship or other benefits referred to PhD courses that are stated as being inconsistent pursuant to article 20, point A1 below.

The qualification obtained upon conclusion of a study course of the old university system at special purpose schools, ISEF, Academies of Fine Arts, ISIA and at the end of university degree courses, is conventionally understood as being equivalent to a three-year degree course (first level qualification) and, just as the latter, enables application under this Announcement for the granting of the scholarship and the place in accommodation for a second-cycle degree only, including single-cycle master degree, provided, in the latter case, that entry has occurred, or shall occur in years subsequent to the first year.

An old university system degree is generally understood as being equivalent to a second-cycle degree (second level qualification, just as the single-cycle master degree) and enables to submit application for the granting of the scholarship and the place in accommodation for attainment of the specialization degree or PhD (third-level qualification).

A university degree (or equivalent qualification) obtained abroad is generally understood as being equivalent to a three-year degree if the duration envisaged for that course abroad is three years or less, i.e. a second-cycle degree if the duration is more than three years, regardless of the acknowledgement of equivalence with any degree obtained or which can be obtained in Italy. A qualification obtained abroad can be acknowledged as equivalent independently from the duration of the course, provided that this qualification corresponds to a first or second level degree by the declaration of value issued by the Italian Embassy in the country of origin or in alternative way by the certification issued in Italian language by ENIC/NARIC centers.

Students that obtained a diploma upon conclusion of old university system studies, completed at state music conservatoires and parified music colleges of the same level, can apply for scholarship:

- only for second-cycle degree if they are enrolled at state music conservatoires and parified music colleges of the same level;

- for all level of study if they are enrolled at all other universities.

It is necessary to be an **off-site student** (see article 2, point B) to apply for the granting of a place in accommodation under this Announcement.

The following students may not obtain the scholarship and the place in accommodation:

- Students who already have an educational qualification (including where obtained abroad) of an equal or higher level than the final one envisaged for the study course for which they are newly registered;
- Students who were already listed as suitable in the final ranking of a scholarship competition for a conventional year of enrolment (see article 2, point C) equal to the one entered for the 2021/2022 academic year, if they have received the amount of money of that scholarship and/or benefited from the services connected thereto; as an exception, students who have renounced their studies in the first year of a degree course within 11/10/2021 and who, for the academic year 2021/2022, they enroll for the second time in the first year of a degree course can obtain the benefits from the year of new enrollment, only in case of repayment within above indicated deadline of the sums already received for scholarship as well as the reimbursement of the possible relative quotas to the services used, if provided;
- Students with a conventional year of enrolment (see article 2, point C) that is greater than the number of years for which the benefit may be granted (see article 4);
- Students with more than one supplementary year of enrolment or repeating a year during the course of study;
- Students enrolled on part-time degree courses;
- Students who have not submit application pursuant to art. 13 of this Announcement;

**ART. 4
DURATION OF THE GRANTING OF BENEFITS**

1. SCHOLARSHIP

Students may obtain the scholarship for the first qualification of each level of study, for a maximum period, calculated from the year of first enrolment, equal to:

- Enrolled on three-year degree courses:* three years plus one semester;
- Enrolled on single-cycle master degree courses:* duration envisaged by the respective educational systems, plus one semester;
- Enrolled on second-cycle degree courses:* two years plus one semester;
- Enrolled in PhD or specialization courses:* duration envisaged by the respective educational systems;
- Students who, having obtained a three-year degree or a conventionally corresponding level of qualification (see article 3), are admitted or have been admitted on to a single-cycle master degree:* the difference between the normal duration of the single-cycle *master degree* increased by one semester and the number of years of enrolment taken to obtain the study qualification in their possession. Exception is made for those students identified in article 2, point C.4, for whom the maximum period of granting of the scholarship is equal to the difference between the normal duration of the single-cycle *master degree* course increased by one semester and the three years of normal duration of the three-year degree course.

2. PLACE IN ACCOMMODATION

For students enrolled on the abovementioned degree courses under points a), b), c), e), the duration of the provision of a place in accommodation, with reference to the duration of the scholarship, is extended by another semester **against payment**;

3. STUDENTS ENROLLED TO THE TRAINING PATHS IN THE MINISTERIAL DECREE N. 616 OF 10 AUGUST 2017

For students enrolled in the degree courses indicated in points a), b), c), e) who have enrolled in the training paths referred to in Ministerial Decree n. 616 of 10 August 2017, in the level of studies to which they are enrolled in the academic year 2021/2022, the duration of concession of the accommodation and the canteen service, compared to that of the scholarship, is increased by a further semester for free.

These students must explicitly indicate in the online application that they have enrolled or have the intention of enrolment in the training paths referred to in Ministerial Decree n. 616 of 10 August 2017 during the course of study attended in the academic year 2021/2022 under penalty of failure to grant the free of charge additional semester.

The granting of the place in accommodation and the canteen service during the extra semester will decline in case of degree as stated below at art. 20 point A.11 and A.14

ART. 5 MERIT-BASED REQUIREMENTS

Students fulfilling the following merit-based requirements, organised according to the conventional year of enrolment (see article 2, point C), may apply for allocation of benefits for the 2021/2022 academic year.

Merit-based requirements will be evaluated on the basis of the valid credits valid to achieve the degree and whose date of achievement is certified by University.

1. STUDENTS ENROLLED IN THE FIRST YEAR

1.A Students enrolled on three-year degree courses, second cycle degree and single-cycle master's courses

An instalment equal to 50% of the monetary amount of the scholarship and the services connected thereto is paid in advance to these students, based on their financial status only, as merit is assessed ex-post, as stated below.

Two deadlines have been set for assessment of merit: the first is on 10 August 2022 and the second, on 30 November 2022.

1.A.1 10 August 2022

Students who meet the following minimum requirements within 10 August 2022, shown in the table below with the number of credits, valid for the study course on which they are enrolled for the 2021/2022 academic year, are entitled to receive the remaining 50% of the monetary amount of the scholarship and continue to benefit the services connected with this scholarship until 30/09/2022.

Study course	Merit-based requirements
Three-year degree	20 credits
Second-cycle degree	15 credits
Single-cycle master degree	20 credits
Pisa – Construction Engineering and Architecture	16 credits
Florence – Single-cycle master degree in Medicine and Surgery	15 credits
Pisa – Single-cycle master degree in Medicine and Surgery	19 credits

To obtain the merit requirements stated above cannot be used bonus credits mentioned at next point 2.1.

Students who, on the other hand, do not manage to obtain the credits in the above table, shall lose the right to the provision of the remaining 50% of the monetary amount of the scholarship, and the services connected with the scholarship itself shall be forfeited starting from 1 September 2022 (see Article 20, point A.13).

1.A.2 30 November 2022

If the students set forth in the last paragraph of the previous point succeed in meeting the minimum requirements expressed in the above table within 30 November 2022 as number of credits for the study course on which the students were enrolled in the 2021/2022 academic year or for the one on which they will enrol for the 2022/2023 academic year, even where this course different from the previous one, or, lastly, even where the aforesaid credits were awarded partly for one study course and partly for another, then they shall continue to be entitled to the monetary amount of the scholarship which they have already received (50%).

Should these students not manage to obtain the aforesaid credits by as late as 30 November 2022, then they shall be obliged to return the monetary amount of the scholarship already received (50%) (see article 20, point B.1).

The forfeiture and revocation with respect to failure to obtain the credits, pursuant to article 20 point B.1, do not apply to students with disabilities (see art. 9), students with children under the age of seven (see art. 10), students who are in prison (see art. 11) and students athletes (see art. 11bis).

In order to obtain the merit of points 1.A.1 and 1.A.2, any credits above 180 obtained from the three-year degree will also be calculated, as long as they are valid for the second-cycle degree. This provision does not apply to students enrolled on second-level Higher Art and Music Education (AFAM) courses in possession of the diploma issued at the end of a four-year course.

2. STUDENTS ENROLLED IN YEARS SUBSEQUENT TO THE FIRST

At **10 August 2021**, students enrolled on degree courses must meet the following minimum requirements, expressed as the number of credits valid for the course of study on which they were enrolled in the 2020/2021 academic year (in tables 1 and 1bis, see the column of the conventional year calculated for the 2021/2022 academic year):

Table 1	Merit-based requirements

**Or the maximum number of credits attainable, excluding those for the final examination.*

**59 cfu from academic year 2022/2023 for students enrolled since 2020/2021

In order to obtain the merit, any credits above 180 obtained from the three-year degree will also be calculated, as long as they are valid for the second-cycle degree.

This provision does not apply to students enrolled on second-level Higher Art and Music Education (AFAM) courses in possession of the diploma issued at the end of a four-year course. In this case, the number of credits shown in table 1 shall be increased by the number of credits acknowledged as already having been attained at the time of enrolment.

Please note that, for all the degree, second-cycle and single-cycle master degree courses, credits for integrated courses shall be understood as obtained and therefore valid for the purposes of the merit-based requirement only where they have been substantiated, in all their parts, at the end of the last useful module. Surplus credits (in excess or outside the study programme), i.e. those which are not useful for obtaining the qualification, shall not be considered as valid when calculating merit.

2.1 BONUS

Three-year degree and single-cycle master degree

If the student does not obtain the minimum number of credits stated above, he or she may use a "bonus", in addition to the credits actually obtained. The bonus are as follows:

- a) **5 credits**, if used for the first time for the granting of the benefits for the second conventional year of enrolment;
- b) **12 credits**, if used for the first time for the granting of the benefits for the third conventional year of enrolment;
- c) **15 credits**, if used for the first time for an conventional year of enrolment after the third.

Any bonus which may have been used to award the services scholarship shall not be taken into account for awarding the scholarship.

For students at Universities and Schools in **FLORENCE** in particular:

3 credits (4 credits from academic year 2022/2023 for students enrolled since 2020/2021) for the single-cycle master degree in Medicine and Surgery, if used for the first time to obtain the benefits for the second conventional year of enrolment;

8 credits (9 credits from academic year 2022/2023 for students enrolled since 2020/2021) for the single-cycle master degree in Medicine and Surgery, if used for the first time to obtain the benefits for the third conventional year of enrolment;

12 credits (14 credits from academic year 2022/2023 for students enrolled since 2020/2021) for the single-cycle master degree in Medicine and Surgery, if used for the first time for a conventional year of enrolment after the third.

If the student uses the bonus partially, the amount of the "bonus" left unused in the conventional year concerned may be used in the following years. This provision also applies in cases where the bonus has been used in previous study careers.

Second-cycle degree

The "bonus" accrued and not used during the three-year degree can be used when the student enrolls on a second-cycle degree course.

This provision does not apply to those enrolled on second-cycle courses following attainment of an equivalent first level degree of the old university system (see article 3).

In the case of a three-year degree obtained abroad, the student may use a "bonus", in addition to the credits actually obtained, as follows:

- a) **5 credits**, if used for the granting of the benefits for the second conventional year of enrolment;
- b) **12 credits**, if used for the first time for the granting of the benefits for the third conventional year of enrolment.

Individual "bonuses" may not be used in conjunction with each other.

For example: students applying to use the "bonus" to meet the merit-based requirement for the second year of a three-year degree shall be entitled to a total "bonus" of 5 credits for the whole of his or her university career (three-year degree + second-cycle degree); students needing to use their bonus for the third year shall be entitled to a total "bonus" of 12 credits, etc.

Therefore, if the student uses 3 "bonus" credits for the second year, then he or she shall be entitled to use the remaining 2 "bonus" credits for the rest of his or her university career.

Students who have used a "bonus", or a part thereof, may not include the "bonus" or the part thereof used in the previous year as valid credits to obtain the merit for the granting of the scholarship or the place in accommodation for the following academic year.

If the credits declared in the application are not sufficient to meet the merit-based requirement of this Announcement, then the part of the bonus which can be spent to obtain the scholarship shall be assigned automatically.

3. STUDENTS ENROLLED ON PHD OR SPECIALIZATION COURSES

These students must be duly enrolled and admitted entry on to courses according to the methods of the respective educational systems, with no supplementary years or repetitions from the first year of enrolment.

4. STUDENTS COMING FROM OTHER UNIVERSITIES IN THE 2021/2022 ACADEMIC YEAR

For students coming from other Italian Universities in the 2021/2022 academic year, the merit-based requirements shall be assessed with regard to that academic year, with reference to the number of credits obtained during the study course on which they were enrolled in the 2019/2020 academic year at their university of origin and certified by said University.

For students coming from foreign Universities, the merit-based requirements shall be assessed with reference to the credits certified by the University where the new enrolment takes place.

5. STUDENTS WHO CHANGES COURSES IN 2021/2022

Students, who have changed courses in the 2021/2022 academic year, are considered as being enrolled on the same study course for the 2021/2022 academic year as the study course on which they were enrolled for the 2021/2022 academic year, the conventional year is calculated as stated in art. 2.C.

The merit-based requirements specified in this article shall be assessed with regard to academic year 2021/2022, with reference to the number of credits obtained during the study course on which they were enrolled in the 2020/2021 academic year.

**ART. 6
GRADUATION FROM A THREE-YEAR DEGREE
AND ENROLMENT ON A SECOND-CYCLE DEGREE**

a) Enrolment on a second-cycle degree: scholarship conversion

Students obtaining a scholarship for the 2021/2022 academic year and who after graduating from the three-year degree, enrol on a second-cycle degree course for the same academic

year, shall apply to the office of the Agency in charge for the relevant University, within 15 days of enrolment, for the scholarship assigned to them to be converted into a scholarship for students enrolled on the first year of a second-cycle degree course or the fourth year of a single-cycle second-cycle degree course.

In the latter case, the number of valid credits obtained during the three-year degree must be sufficient for the student to maintain possession of the merit requirements for the scholarship for the new course of study.

To obtain the conversion of the scholarship for the first year of a second-cycle degree, students with income and/or assets abroad must send the documentation stated at art. 8 with the application for scholarship by the deadline for submitting the application.

b) Students over fourth conventional year of enrolment expecting to graduate from the three-year degree and enrol on a second-cycle degree for the 2021/2022 academic year

These students may apply for the scholarship and the place in accommodation as though they were students enrolled on the second-cycle degree, including where this enrolment has not yet taken place, on the condition that they have obtained at least 150 credits valid for the degree course on which they were enrolled in the 2020/2021 academic year within **10 August 2021**.

The monetary sum of the scholarship shall be paid to these students - who are listed in the ranking with a **pending status** - only once they have actually enrolled on the second-cycle degree, while the services connected with the scholarship shall be provided in advance to students submitting a specific written request to the Agency.

If these students do not graduate from the three-year degree, or, despite graduating from the three-year degree, they do not enrol on a second-cycle degree for the 2021/2022 academic year within the deadline set by the Universities concerned (no pre-enrolments are valid), then they are obliged to leave any place of accommodation they may be occupying and to pay back the value of the services used.

Any rent contributions shall instead be paid in respect of the requirements stated below in article 18.3, only after the reason for the pending status no longer exists.

Said students shall inform the Agency upon attainment of the degree, as well as the subsequent enrolment, or failure to enrol, on a second-cycle degree; this within 10 days of attainment of said degree.

Students who in 2020/2021 were awarded a place in accommodation and whose benefit has not lapsed, may also apply for "confirmation of accommodation".

c) Students intending to enrol on a second-cycle degree in the 2022/2023 academic year

Students who have been awarded a scholarship and place in accommodation for the 2021/2022 academic year and who, having completed the three-year degree, do not enrol on the second-cycle degree course (including single-cycle) for that academic year but intend to enrol on the same for the 2022/2023 academic year, may retain the services connected with the scholarship for the envisaged period in order to continue their educational activity and studies, without prejudice to their being entitled to the monetary sum of the scholarship due to them.

Winners of half-yearly scholarships and places in accommodation may continue to benefit from the place in accommodation in the second semester, at a charge of €250.00 per month (see article 18) and from the canteen service at the charge stated with resolution by the Board of the Agency.

In order to obtain the above, they must send the Agency, within 10 days of obtaining their degree, a specific application accompanied by documentation proving the need to continue educational activity in order to enrol on one of the second-cycle courses established at Universities in Tuscany for the 2022/2023 academic year (for example enrolment to single courses, language courses, ecc...).

If, for any reason, they do not enrol on a second-cycle degree course organised by the Universities in Tuscany in the 2022/2023 academic year, they shall vacate any place in accommodation they may be staying in and pay back the value of the services used free of charge since their obtaining the three-year degree.

d) Second-cycle degree: enrolling on single transition courses

Those students who have obtained the three-year degree and register on single transition courses for the 2021/2022 academic year waiting to fill the training debt for the admission requirements for regular enrolment on the second-cycle degree, may apply for the scholarship and place in accommodation as though they were enrolled on the second-cycle degree, even if that is not the case.

These students, who are listed in the ranking with a **pending status**, will only be paid the monetary amount of the scholarship once they have actually enrolled on the second-cycle degree (pre-enrolment is not valid), whereas the services connected with the scholarship shall be provided in advance to those students who send a specific written request to the Agency.

In the event that these students do not enrol on the second-cycle degree in the 2021/2022 academic year, they shall vacate any place in accommodation they may be staying in and to pay back the value of the services used.

Any rent contributions shall instead be paid in respect of the requirements stated below in article 18.3, only after the reason for the pending status no longer exists.

The students referred to in points a), b) and d) that for the academic year 2021/2022 are scholarship winners in the first year of the second cycle degree and who do not meet the merit requirements indicated in art. 5 point 1.A.2 are subject to the revocation of the scholarship as provided for by art. 20 point B1.

All those students who have to pay back the value of the services used must pay the Agency the fees set forth in article 20, point C.

ART. 15

CRITERIA FOR DRAFTING THE RANKINGS

A. SCHOLARSHIP

For the purposes of drafting the **rankings**, students who won in the DSU Toscana scholarship announced for the 2020/2021 academic year and who did not forfeit the benefit are considered **scholarship confirmations**.

Students who won in the DSU Toscana scholarship for the 2020/2021 academic year and did not forfeit the benefit and who, having obtained the three-year degree, are also applying for the scholarship for the 2021/2022 academic year as second-cycle degree students, are also considered **scholarship confirmations**.

Each ranking shall be drafted without making any distinction between courses and arranged in ascending order of the ISEE, based on the following priorities and methods:

1. Degree course students eligible for grant of scholarship
--

1.1 – **Scholarship confirmation** students

1.2 – All other students

In case of a draw, the scholarship shall be awarded according to the descending order of a ranking score (RS), awarded to each student, which is a function of the merit obtained. The RS score is calculated as follows:

$$RS = 1000 * MS \text{ (where MS is the merit score)}$$

MS is calculated as follows:

$$MS = \frac{\text{(Merit value of the student – Minimum merit threshold)}}{\text{(Maximum merit threshold – Minimum merit threshold)}}$$

Conventional year	Type of degree	Maximum threshold	Minimum threshold	Student's merit value
1	Three-year and single-cycle master	Maximum secondary school diploma grade obtainable	Maximum secondary school diploma grade obtainable	Secondary school diploma grade
Subsequent years	All courses	Maximum credits obtainable with reference to the conventional year	Minimum credits required, net of the bonus, with reference to the conventional year	Credits obtained within the deadlines specified in article 5

The scholarship shall be awarded to at least 50% of those eligible among students enrolled on the first year of a three-year degree course, a single-cycle master degree course.

2. PhD and specialization course students eligible for the Announcement

2.1 – **Scholarship confirmation** students (for whom a dedicated reserve fund has been set aside)

2.2 – All other students

These students may obtain the benefits only once they have been awarded to the winning students in the rankings outlined in point 1 to the extent that resources are available.

Within each group, pending students identified in point C, paragraphs 6, 9, 10 and 11 below, shall be listed in the rankings set forth in points 1 and 2 above with a stipulated ISEE value of €23.626,00.

If there is still a draw situation, precedence shall be given to the youngest student.

3. Students eligible but not scholarship holders

Based on the funds available, the percentage of eligible students that will benefit the scholarship will be established. This percentage will be applied to ensure the same coverage of winners among eligible Italian students and eligible foreign students as defined in art. 8. Students who will qualify as eligible but not scholarship holders will be placed on the list after the winners of the scholarship.

In the event that the available resources do not allow the allocation of the scholarship to all eligible people in the ranking, during the academic year if additional funds are available the Agency will be able to scroll down the ranking and do new scholarship holders.

The same ways of identifying the scholarship holders will be applied when new funds are found and the ranking will be scrolled.

2. CRITERIA FOR THE GRANTING OF THE PLACE IN ACCOMMODATION

2.1 Drafting of the rankings

For the purposes of drafting the rankings, **students confirming accommodation** are understood as students who won a place in accommodation in the 2020/2021 academic year and who, for the same academic year, were actually allocated a place by the Agency and:

- did not forfeit the benefit;
- forfeited because they attained a three-year degree or second-cycle degree;

These provisions also apply to students who actually obtained a place at one of the sites of the Agency for the 2020/2021 academic year, even if different from the place in accommodation they will win for the 2021/2022 academic year.

PhD and specialization course students will be listed in separate rankings from the other Announcement participants, as they have a deferred application submission deadline (see article 13).

15 places are reserved for these students at each site, and if more are needed, then the number of places reserved shall be equal to the number of places required for those confirming the place in accommodation obtained in the 2020/2021 academic year.

A. Students eligible under this Announcement and enrolled on three-year degree courses, second cycle degree and single-cycle master's courses

The following priority criteria will be used for each site of the Agency when drafting the ranking:

- A.1 Students **confirming accommodation** for 2021/2022 scholarship holders;
- A.2 Students scholarship holders for 2021/2022 who won a place in accommodation for 2020/2021, who were not called for allocation of the place and who have not forfeited the benefit;
- A.3 scholarship holders for 2021/2022 not belonging to groups A.1 and A.2;
- A.4 Eligible students who have not won a scholarship under the 2021/2022 announcement;

Students in groups A.1 and A.4 shall be arranged in ascending order of their ISEE.

Students in groups A.2 and A.3 shall be arranged according to the conventional year of enrolment, with priority given to the highest; for the purposes of arranging that group only, the conventional year of those enrolled on second-cycle degree courses is extended by the number of semesters for which the scholarship is granted for the three-year degree. Students will be arranged in ascending order of ISEE within each conventional year.

The merit criteria valid for the scholarship ranking shall be used in case of a draw between students within each group.

B. Students eligible for the Announcement enrolled on PhD and specialization courses

- B.1 2021/2022 scholarship holders **confirming accommodation**;
- B.2 2021/2022 scholarship holders who won a place in accommodation for 2020/2021 but were not called for the allocation of the place and did not forfeit the benefit;
- B.3 2021/2022 scholarship holders **not belonging to groups B.1 and B.2**;
- B.4 Eligible students who have not won a scholarship under the 2021/2022 announcement;

Students in each group will be arranged in ascending order of their ISEE.

If the benefit is granted, the place in accommodation will be assigned in the manner specified in point 2.2 below.

Without prejudice to any reservations, places in accommodation will be allocated to these students after places have been allocated to those in group A.

If there is still a draw between students in the aforesaid rankings, precedence shall be given to the youngest student.

Within each group, students with pending status for the reasons outlined in article 15, point C, paragraph 6, 9, 10 and 11, shall be listed in the rankings set forth in points A and B above with the stipulated ISEE value of €23,626.00.

2.2 Procedure for allocation of the place in accommodation

With the exception of students already staying in accommodation, those students who have won a place in accommodation shall be called for the allocation of said place as and when one becomes available, subdivided by gender.

Allocations will be done exclusively through public notices published on the www.dsu.toscana.it website. The terms of the allocation will be available in the student's reserved area and will be valid for all purposes as notification. No personal communication will be sent to the student.

First allocation will be done on 1 october 2021.

Following calls in order to proceed to allocate available places that are created will be done normally every 15 days.

Last allocation will be done on 2 september 2022.

The Agency sets aside the following places in accommodation for students who are winners of the place in accommodation enrolled on three-year degree, single-cycle master degree:

- in Florence:
350 places in accommodation: 280 for students of Italian nationality, 15 for foreign students from Europe, 30 for students from Asia, 20 for students from Africa, 5 for students from America;
- in Pisa:

Any places not allocated due to a lack of students coming from a given geographical area shall be allocated by scrolling down through the ranking of registered students until the 350 reserved places have been filled.

The reserved seats not assigned due to renunciation or no reply to the calls will be assigned to the first year students in order of ranking until the 350 places have been reached without taking into account the subdivisions indicated above.

The seats will be assigned according to the following priorities:

- a - students with disabilities as per art.9;
- b- student categories for which a dedicated reservation has been designated, as stated above;
- c –students in the first ranking, in order of the same;
- d –ranking for students enrolled on specialization or PhD courses.

During the academic year it could happen that some allocations of places in accommodation will be done with different order compared to the ranking due to imbalance between gender. In that case for allocation of places the Agency may take into account the availability given by the students in the application for scholarship of living with other gender in the apartments.

Students who, for no justified reason, do not step forward within the deadlines specified in the call will be regarded as having forfeited the benefit.

Upon allocation of the place in accommodation in the residences, students shall:

- exhibit a valid identification document and submit a copy of it;
- in the case of foreign students, also submit their residence permit, or, where not in possession of the same, the receipt of the residence permit application and a copy of it;
- pay a non interest-bearing security deposit of €250.00.

Students shall forfeit the benefit of accommodation in cases where:

- they turn down the allocated place in accommodation;
- they do not step forward within the deadlines specified in the notice of call published in their reserved area.

2.2.1 - Possibility of postponing the assignment

At the moment of the call for the allocation of place in accommodation, students who benefit rent contribution (see point 3 of this article) may ask to postpone the allocation for the time needed to terminate the lease contract. This period cannot be more than three months from the call for allocation.

This benefit allows to maintain the right to the place in accommodation and the students who want to obtain it have to submit a copy of the certificate of termination of the lease contract within the end of the public notice for allocation. These students have to undertake to present themselves for the allocation of place in accommodation when they are called for the second time by the Agency. Meanwhile the student can continue to benefit the rent contribution for maximum three months. If the student will not accept the place in accommodation on second call or he will not present himself for allocation, the student have to reimburse the rent contribution received since the date of first call for allocation and will loose any right to place in accommodation and rent contribution.

Students must reimburse the rent contribution received since the date of call for allocation, if they accept the place in accommodation but they leave it within 30 days or they are revoked because of failure of use of it.

The benefits as stated in this paragraph will be granted to students who will be called for allocation of place in accommodation within April 2022. Requests for benefit will be accepted also for May and June 2022 but in those cases the allocation can be postponed only for two months for requests of May and one month for requests of June.

For students with half-yearly scholarships the benefits as stated in the paragraph above will be granted to students who will be called for allocation of place in accommodation within December 2021. Requests for benefit will be accepted also for January and February 2022 but in those cases the allocation can be postponed only for two months for requests of January and one month for requests of February.

2.2.2 Accommodation charges and relative payment methods

The monthly charge of €250.00 applies to students with half-yearly scholarships, for the second semester only. It is except for the students under point 3 of article 4 that benefit from the accommodation place free of charge for the second semester. Payment of the aforesaid charge must be made in advance in monthly instalments within the 10th of each month. The student who will be in exceptional situation can request the payment in instalments of minimum 50% of the monthly charge. To obtain this benefit the student have to submit a specific documented application.

When the student leave the place in accommodation, he have to pay all his debts, if present. 3. RENT CONTRIBUTION

Scholarship holders and students winning places in accommodation shall benefit from the place in the housing facilities of the Agency free of charge; if no places are available in these facilities, they shall benefit from payment in place of this (rent contribution) the yearly amount of € 3.000,00 for annual scholarship winners and for the students under point 3 of article 4 (€ 1.500,00 for half-yearly scholarship winners), shall be calculated on a pro rata basis with relation to the overall granting period (point 1 of this article).

The rent contribution is granted up to the date of convocation for the allocation of the accommodation but the provisions of point 2.2.1 of this article may be applied.

Students with disabilities identified in Article 9, students with cohabiting children under the age of seven identified in article 10, married students cohabitant with their spouse and students attending a study course whose main site is in a Municipality where the Agency has no housing

facilities may benefit, **subject to application**, to the rent contribution instead of the place in accommodation.
